Agenda

- Repository Overview & Developing.md
- PR Process
- How to decided what to work on?

Repository Overview

- [emissary.git](#)
 - /DevDocumentation/DEVELOPING.md
- [Ambassador-docs.git](#)
 - /README.md
 - /docs/emissary/pre-release
 -

- DCO is required! Make sure git is setup to sign all your commits!
 - <https://www.secondstate.io/articles/dco/>
- Pull-Request
 - Fork repository
 - Pick Issue and let one of the maintainers know so that we can assign it to you
 - Small PR's are best, faster and easier to review
 - Don't worry about adding a changelog, we will take care of it!
 - When ready let a maintainer know and we will trigger CI
- How to decide what to work on?

contrib-fest

needs-design

needs-triage

- DCO is required! Make sure git is setup to sign all your commits!
 - <https://www.secondstate.io/articles/dco/>
- Pull-Request
 - Fork repository
 - Modify docs in the **docs/emissary/pre-release**
 - Small PR's are best, faster and easier to review
 - When ready submit PR upstream and CI will run!
- How to decide what to work on?
 - Is there an area you wish had more content?
 - Is a specific area written in a confusing way?

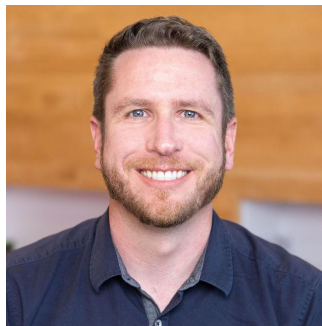

Thanks for Contributing!
